

## Nordic Aphasia Conference – Poster presentations **Tuesday** June 10th

Poster board number	Poster-id	Presenter	Poster title
1	81759	Pierre Andre Menard	Simulating aphasic speech with large language model adapters
2	81739	Martina Vukovic Ogrizek	Syntactic processing in people with aphasia
3	81751	Karolina Lice	Predictive role of semantic memory on the success of object naming in people with aphasia after stroke
4	80694	Johanna Knechtges	Self-initiated self-repair in aphasia: exploring lexical repair markers
5	81027	Luisa Cacciante	The impact of language production on reaching movement of the upper limb: a proof-of-concept study
6	81105	Luisa Cacciante	Telerehabilitation for post-stroke continuity of care: a multicentric pilot study
7	81581	Amanda Comer	Developing a telehealth assessment toolkit for speech and language therapists using the COM-B and TDF behaviour change models
8	80875	Annie Hill	User acceptability of a telerehabilitation delivered Intensive Comprehensive Aphasia Program: TeleCHAT
9	80370	Genevieve Vuong	Can people with aphasia and speech pathologists use a telerehabilitation system to complete TeleCHAT, a Comprehensive High-dose Aphasia Treatment?
10	80931	Charlotte Johansson-Malmeling	Telerehabilitation with Verb Network Strengthening Treatment in individuals with aphasia: a randomized controlled trial
11	79880	Malin Torinsson	Telerehabilitation with Verb Network Strengthening Treatment (VNeST) in two participants with aphasia: A single-case experimental design study
12	81564	Maria Nysom Kjaergaard	Online aphasia groups for people with aphasia – from a temporary Covid-19 initiative to a sustainable community
13	81216	Sam Harvey	Mapping usual care aphasia rehabilitation against Best Practice Statements: Evidence from the Measuring and Monitoring Aphasia Services project
14	79922	Deborah Hersh	Language and cognitive communication assessment in a changing world – future directions and possibilities for the “Assess for Success” study.
15	81884	Marie-Christine Hallé	Global collaborations in aphasia care need a common language: Secondary analysis of organizational and system-level barriers to best practices uptake
16	81005	Kirstine Shrubsole	Does a Champion-led implementation toolkit have the potential to improve aphasia guideline adherence? Results from a pilot feasibility study.
17	81221	Marissa Stone	Measuring care and outcomes in post-stroke aphasia services: A multicentre pilot study to implement a co-developed minimum dataset
18	81222	Marissa Stone	Comparing healthcare quality and outcomes for people with and without aphasia within rehabilitation services: findings from a national audit study

## Nordic Aphasia Conference – Poster presentations **Tuesday** June 10th

19	79390	Courtney Jewell	Temporal patterns of stress in aphasia: Evidence from Ecological Momentary Assessments
20	81218	Katie Strong	Training future speech therapists in life storytelling for aphasia: An international educational initiative in speech therapy
21	81295	Rianne Brinkman	Training future speech therapists in life storytelling for aphasia: Impact on people with aphasia
22	81172	Sille Nielsen	We would like to help, but we can't: When psychological needs of families with aphasia challenge the service provision
23	79908	Nelson, J, Hernandez	Development of the CLOSA intervention for carers of people with aphasia
24	81201	Evangelia Antonia Efstratiadou	Computer adaptive anomia test in Greek
25	81435	Emma Wahlstrand	Naming objects and actions: A validation study
26	81440	Emma Wahlstrand	An examination of noun and verb naming differences in aphasia: Effects of lesion site, aphasia type and the use of static or dynamic stimuli
27	81935	Merje Viigand	Verb and noun retrieval in confrontation naming versus connected speech
28	81108	Erica Middleton	Treatment selection for naming impairment: Evidence from error types
29	81943	Ida Luotonen	Clinical use of semantic verbal fluency tasks
30	81380	Sanna Lemmetyinen	Recovery of language skills compared with recovery of gestures for persons with severe non-fluent aphasia and limb apraxia: A long-term follow-up
31	80255	Berzan Cetinkaya	Further development and evaluation of the TALES programme with stroke survivors with chronic aphasia: a mixed-methods case series study
32	81831	Sarah Weström	Colored overlays and their effect on reading speed and efficiency for adults with acquired brain injury
33	81742	Irene Ablinger	TEXT-FROM – a person-centred framework for acquired text comprehension disorders
34	81203	Ilias Papathanasiou	Evaluating the efficacy of mapping therapy in Greek-speaking individuals with aphasia: A randomized control trial
35	81183	Deborah West	Can discourse be improved using mobile technology? Comparing outcomes of the NADIIA protocol with and without the NADIApp
36	81186	Anne Whitworth	Multilevel aphasia interventions: exploring the evidence for facilitating and measuring effectiveness, generalisation and impact
37	81342	Anna Pietszak	Adapting Phonological Components Analysis therapy to French Sign Language: a multiple case study
38	80853	Ilona Carola Rubi-Fessen	Individualized transcranial direct current stimulation in subacute aphasia – a boost for linguistic and communicative skills?
39	81080	Johanna Hjerling	The effects of Verb Network Strengthening

## Nordic Aphasia Conference – Poster presentations **Tuesday** June 10th

40	80821	Susie Williams	Speech and language therapists' views and experiences of working with people with Wernicke's aphasia
41	81256	Ingvild Elisabeth Winsnes	The Mini Linguistic State Examination – adaptation to Norwegian
42	81096	Melanie Kirmess	Experiences from the adaptation of the «Therapeutisch Instrument voor Apraxie van de Spraak" (TIAS) into Norwegian
43	81088	Melanie Kirmess	Adding time for home practice – participant experience from the revised SunCIST-program for aphasia
44	81188	Katie Monnelly	Designing a logic model and theory of change with people with aphasia for an Intensive Comprehensive Aphasia Programme (ICAP)
45	81184	Katie Monnelly	Intensive Comprehensive Aphasia Programme (ICAP) outcomes from pre-post studies
46	81210	Jana Horynová	Specifics of current complex rehabilitation of aphasia in the Czech Republic: Limits and challenges
47	80085	Dorothea Peitz	Changes of brain activations during auditory language task after intensive speech and language therapy in aphasia after stroke
48	79334	Ellen Grut	Development and implementation of a framework for delivering intensive language action therapy in collaboration between in- and outpatient wards
49	81189	Io Salmons	Assessment of naming abilities in Catalan-dominant bilinguals using the Comprehensive Aphasia Test
50	80139	Chelsea Larkman	Evaluating a co-designed collaboration tool for cross-cultural and cross-linguistic aphasia therapy.
51	80873	Marion Leaman	Adapting ECoLoGiC-Treatment (Expanding Communication and Language Opportunities Generated in Conversation) for bilingual populations: Two case studies
52	81207	Javad Anjum	A systematic review of Semantic-Feature Based treatments (SBTs) in bilingual aphasia
53	80722	Viktoria Kevicka	Multilingual Naming Test: A pilot study of linguistic adaptation
54	81881	Analisa M Pais	Frameworks to guide cultural adaptations, and their documentation in aphasia treatments.
